

SUID Investigation and Doll Re-enactment Workshop

Brought to you by the Office of Public Health Bureau of Family Health

Training Objectives

At the end of the training, participants will be able to:

1. Understand the different types of SUID and differentiate those deaths from deaths due to physical abuse and neglect
2. Describe normal infant development and apply knowledge to scene findings
3. Conduct a comprehensive scene investigation using Louisiana's SUID investigation reporting form
4. Describe appropriate interviewing techniques
5. Conduct a doll reenactment and describe an infant's sleep environment
6. Conduct a scene investigation while honoring family needs and ensuring provision of resources to support families

There is no cost to attend this professional training.

Instruction will be provided by Connie Shingledecker and Beoncia Loveless.

Upon successful completion of the training, attendees representing agencies that conduct SUID investigations in Louisiana will be supplied with a doll reenactment kit, which will include a weighted cloth doll, digital thermometer, flashlight, measuring tape, and duffel bag.

Pre-registration for this event is **required**. Space is limited.

Check the box of the training you would like to attend:
